EMPLOYMENT

Applications Developer	iNautix Technologies	Feb 2015 – Present

Ruleset Manager   **Angular2, Spring Restful Web Service, Sybase**
- Created a single page proof of concept for the most complex screen in the system. The business team accepted the concept and converted it into a project.
- We are the pioneer in iNautix to create the entire application using Angular2.

DBVX   **AngularJs, Spring Restful Web Service, Sybase**
- We initiated the process of onboarding the clients into the system in a more automated way. Collaborated with the team in the creation of user interface.
- Designed the new way of uploading excel as well as the web based forms to onboard the clients. It reduced the number of person-hours for onboarding the clients.

Portfolio Game   **AngularJs, Spring Restful Web Service, MySQL**
- Created an interactive game using angularjs and rest service where 5 players play for 3 days from 9AM to 3PM each day to increase their portfolio by buying/selling shares
- Started this project during internship period where we tried to implement agile modelling in which I played the role of scrum master

EDUCATION

Qualification	Institution	Board	Percentage	Year of passing
B.E., CSE	Sri Sairam Engineering College	Anna University	86.67	2015
HSC	St. Sebastian Matriculation Higher Secondary School	State Board	94.83	2011
SSLC	St. Sebastian Matriculation Higher Secondary School	Matriculation	93.20	2009

TECHNICAL EXPERIENCE
- Apaarr Procurement Services (2015 – 2016) – A mobile application developed for a startup company. It allows buyers and sellers to register themselves into our platform and thereby they can initiate trade.
- VM Lock (2016) – Simple and smart password manager, which created as a hybrid mobile application.
- Realtime Translator (2016) – Participated in NEXEN API Hackathon and created a realtime translation tool in just 24hours using IBM API. The concept is well appreciated and selected as one of the top six best project in hackathon all over iNautix.

AWARDS
- Star Award (Q3 2016) – Awarded as the best developer in iNautix for Q3 2016.
- Drives and Delivers Excellence Award (2016) – Awarded twice by the team for delivering project needs on time and for the responsibility that I took for the development.
- University Rank Holder (2011 – 2015) – Anna university 42nd rank holder

LANGUAGES AND TECHNOLOGIES
- Frontend – AngularJS, Angular2, Bootstrap, Angular Material UI
- Backend – Spring, Restful web service
- Languages – Java, C, SQL
